

Providing Browser and System Information to Nearmap

Your Nearmap support technician may ask you to supply the name and version number of your Web browser. This is easy with <https://www.whatismybrowser.com/>.

1. Visit <https://www.whatismybrowser.com/>
2. Locate the text that says "SHARE YOUR SYSTEM INFO WITH TECH SUPPORT - SEND THEM YOUR UNIQUE LINK"
3. Copy that link and send it in a support ticket
[SUBMIT A SUPPORT REQUEST](#)
Include your username so we can link this to your support case.

<https://www.whatismybrowser.com>

The screenshot shows the homepage of WhatIsMyBrowser.com. The navigation menu includes links for Detect, Guides, Blog, Developers, API, and About. The main content area displays the detected browser information: "YOUR WEB BROWSER IS: Chrome 51 on Mac OS X (Yosemite)". Below this, it asks "IS YOUR WEB BROWSER UP TO DATE?" and provides a green confirmation message: "✓ Your web browser is up to date." At the bottom, there is a section for sharing system info with tech support, with the unique link "whatismybrowser.com/w/rt8jkgf" highlighted in a red box.
